

Peer Review 1

1. My peers understood that the site's purpose was to allow all users to browse food recipes based on ingredients and interest.
2. My peers suggested adding a page to submit recipes.
3. My peers liked the website colors. They suggest making the logo smaller so the header doesn't take so much space.
4. My peers found communicating my message effective.
5. My peers suggested making the images vertical to make the interactivity on my site better.
6. Inconsistent found across devices was that in mobile, the UI could be more user friendly.
7. The feedback was that the colors are food.
8. UI for a smaller screen like a mobile could be improved to be more user friendly.
9. My peers liked the features included the most about my site.
10. I will add a submitting recipes feature and I will make the images with better accessibility.
